

REMARKS

Entry of the foregoing amendments and favorable consideration of the subject application is respectfully requested in view of the following comments.

The specification and claims have been amended to correct minor typographical errors and to make them more easily readable upon publication.

Specifically, in the paragraph at page 15, line 6, the reference to "the other side 24" in line 9 has been amended to read -- the other side 25 -- in keeping with the drawing figures.

In the paragraph beginning at line 23 on page 15 and continuing to line 7 on page 16, the reference to "This bend" in line 4 of page 16 has been amended to read -- Thus bending the sheet bundle 21 in two-steps, i.e. in the first bending step and in the second bending step, --, which language was inadvertently omitted during typing of the English translation. In addition, in line 6, the reference to "bent component 7" has been amended to -- bent component 9 - in keeping with the drawings.

Applicants herewith submit substitute pages 15 and 16 of the specification, as amended and respectfully request that these pages be used in publication of the subject application.

Applicants respectfully submit that no new matter has been added by the foregoing amendments and that the application is in condition for allowance.

An early notice of allowance is respectfully requested.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'L. W. Sherman', is written over a horizontal line.
